MICROGRAPHICS EQUIPMENT SERVICES, INC.

IMPROVING *YOUR* EFFICIENCY IS OUR BUSINESS

WebView **EZ**

Web - Based Image Storage and Retrieval Service

**Since 1979** Micrographics Equipment Services Inc. has provided customer driven service solutions.

WebView EZ™ internet accessible Data Warehouse, is another solution designed to increase the efficiency of our customers. Using your existing internet browser, WebView EZ allows easy, password protected access to scanned and computer generated information from anywhere in the world.

WebView EZ, is a complete outsourced image storage and retrieval system without the need for capital expense and IT support. View images in seconds. And viewing is just the beginning……..

Designed for the EZ access….

- Eliminates all paper and handling.
- Retrieve any document or image, whether it is EDI or a scanned paper.
- Search by user defined index fields.
- Password protected, worldwide accessibility.
- Standard service includes 6 months of storage and unlimited users.
- Searchable archive CD available.
- Print or download images in PDF format.
- Email images or files in PDF format.
- EZ, intuitive; train in minutes.
- Improve your efficiency while we provide continued maintenance and performance upgrades.

WebView EZ Data Center is designed with uninterruptible power supply, offsite backup and diesel generator backup power for fast response.
